

Computer Safe

**How important is the data
in YOUR server?**

A server is replaceable, however,
the information stored in your server
is crucial to your business.

Standard Features

- Maximum Security to Data and Server
- Strong Steel Constructed Safe with Ventilation System
- Digital Door Mechanism with Strong Bolts
- Sliding Shelf for Easy Server Maintenance (picture on right)
- Override Key Opening
- Four Bolting Holes
- The Megasafe Computer Safe gives you the maximum protection from non-authorized hands getting close to your valuable information
